

## Happy Easter

Hi Everyone and Happy Easter!

I love all those jokes about chocolate being calorie free on Easter Sunday, you know that's true, right? So while there will be a little time to indulge and catch up with family over the next couple of days, it's also final count down to the Australasian Quilt Convention. So in between Roast Pork and Chocolate Fudge Brownie with raspberry sauce (also fat free on Easter Sunday), there are a few final touches being made to labels, kits, new patterns and of course our display of the Great Australian Bag Challenge entrants that we are showing at the Convention!

But you know how it goes..... Can't make it to the show? Don't want to miss out?

So here are some of the goodies we are taking to AQC. You can get in first now on our website and place an order so you don't miss out. Emma and I love filling our precious customers' mail orders off the stand BEFORE they open the doors on Thursday morning!

### Panel Pocket Tote

Ok, so do you have a lovely 24" panel sitting in the stash, and you don't know what to do with it? I've found a solution, we are going to commit the ultimate sin and cut it up to make a bag! This tote is loaded with pockets, and is especially designed for you to have fun fussy cutting the front flap, back and side pockets from a panel or large print.

### Oriental

I've used a beautiful new Timeless Treasures panel with two complimentary prints.

[Kit](#) \$50

### Aussie

Oh ok yes, I lied I did have one bolt of Under the Australian Sun red gumflower stashed for personal use and as the new version of this print will be here in June, I decided to part with it! Here I've featured my Aussie Swag panel with red gumflower and an aussie black floral. Super limited kits on this one so be quick!

[Kit](#) \$50

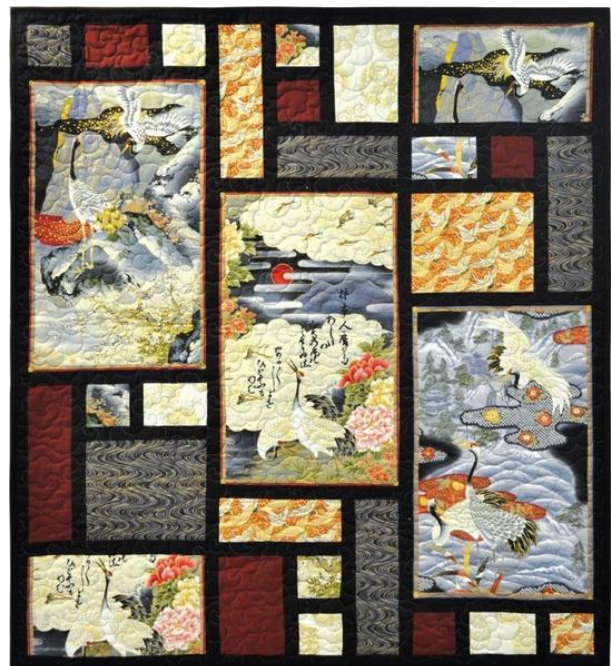

### Imperial House

Speaking of panels, we have some gorgeous Kona Bay panels. This time you get three panels across the bolt in a 24" repeat. So I have designed this quilt to accommodate these elegant panels and added some regal prints to complete the look. This is a good "fella" quilt, and would be easy to expand into a double bed quilt if you wished.

Dimensions: 41 ½" x 42 ½"

[Kit](#) \$80

### The Weekender Bag - Nouveau

Finally it's off my UFO list! I always wanted to make The Weekender Bag in Melba Grey as well as the Black version, and it's come up quite pretty.

The patterns and kits for both are now available.
